Local Tree Care Professionals

Any work or services near Glendale's protected trees must be authorized through the City's permitting process. It's the responsibility of both homeowners and contractors to confirm whether a permit is needed and to secure one before starting any work. Applications are available online at GlendalePermits.org.

For questions about City- or privately owned trees, contact the Public Works Forestry Division at (818) 548-3950. These lists are provided as a courtesy to Glendale residents. The City of Glendale neither recommends nor endorses any individual or business included.
